

## FUSION IN BRONX FINALLY EFFECTED

Republicans and Democrats  
Agree on Plan to Defeat  
Ousted Socialists.

### ABELES STILL AN ISSUE

Arthur Murphy Refuses to In-  
dorse Senator Because  
of 'Dry' Vote.

The expected announcement of an agreement on a fusion ticket in the Bronx to defeat the ousted Socialist Assemblymen in the forthcoming special election was made yesterday by Richard W. Lawrence, Republican leader of the Bronx. Fusion already having been agreed upon in Manhattan and being virtually assured in Brooklyn, a solid opposition will confront the effort of the Socialists to return to Albany the men who were expelled from the Assembly.

The Republicans agreed to support the Democratic candidates in the Third, Fourth and Fifth Assembly districts of the Bronx, despite the refusal of the Democrats to support Senator Peter A. Abeles, the Republican candidate, in the Twenty-second Senatorial district. Lawrence declared that this failure on the part of the Democrats was bad faith and a repudiation of an explicit agreement.

It was agreed that the Democrats were to get the Assemblymen from the Third, Fourth and Fifth Assembly districts," he said, "and the Democrats in consequence would indorse Senator Abeles, who has proved himself an efficient Senator. Repeated conferences have resulted in Arthur H. Murphy, Democratic leader of the Bronx, refusing indorsement to Abeles. That is the situation to-day. Responsibility for a

Socialist Senator going to Albany will lie at the door of Murphy.

"However, the Republicans will indorse the Democratic candidate for the general elections in the three strongly Socialist Assembly districts in effort to prevent an un-American representative going to the Legislature. We will stand by Abeles, though. We will not nominate any candidate for the special elections in the Third and Fourth Assembly districts in the special elections in which DeWitt and Orr, the ousted Socialists, are running against Democrats for reelection.

"Mr. Murphy's attitude is peculiar. He gives as his reason for not indorsing Abeles that the Senator voted for ratification of the prohibition amendment. That is the law of the land now and is, therefore, no longer an issue, so it looks as though there were some other reason for this refusal. Senator Abeles voted for the 4.75 per cent. beer bill. His record as a legislator entitles him to be returned to the Senate.

### MONTANA PRIMARY RACES ARE CLOSE

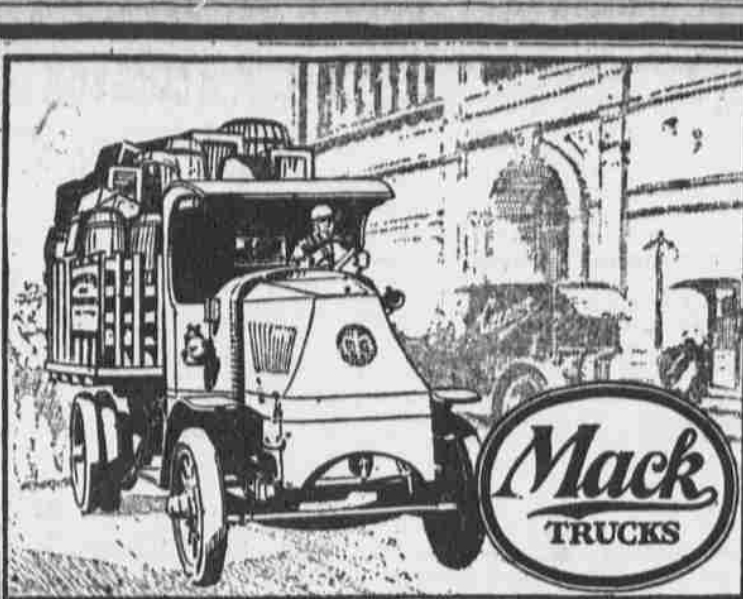

Dixon Leads for G. O. P.  
Gubernatorial Choice.

HELENA, Mont., Aug. 25.—Former Senator J. M. Dixon, in the face of incomplete returns from 452 precincts in yesterday's primary, was leading for the Republican nomination for Governor late to-day with 9,206 votes. Harry L. Wilson, his nearest opponent, had 8,610.

Former U. S. Attorney B. K. Wheeler, indorsed by the Non-Partisan League, was leading for the Democratic nomination for Governor, with 15,024 votes, compared with 9,753 for Lieut.-Gov. W. W. McDowell.

Thomas J. Walker, with 4,746 votes, and Burton Watson, with 4,417, were leading Representative John M. Evans for the Democratic nomination for Congress in the First district. In the Second district McCusker, Non-Partisan, with 4,140, was leading Carroll, who had 3,484.

For the Republican nomination for Congress in the First district W. J. McCormick, with 4,249 votes, was leading Joseph H. Griffin, with 2,858, and Mrs. Johanna S. Grigg, with 1,830.

### Real Economy Counts

"We can certainly recommend the Mack. We have never had it in the garage for repairs since we bought it, a little over 2 years ago."—From one letter out of hundreds we should like you to read.

REAL economy is the inevitable result of quality. For example—Mack cylinders and pistons are carefully annealed. Mack driving sprockets are case hardened, as well as the crankshaft, camshaft and timing gears.

Distinctive Mack engineering features combined with 18 basic Mack patents have developed the motor truck the world is talking about.

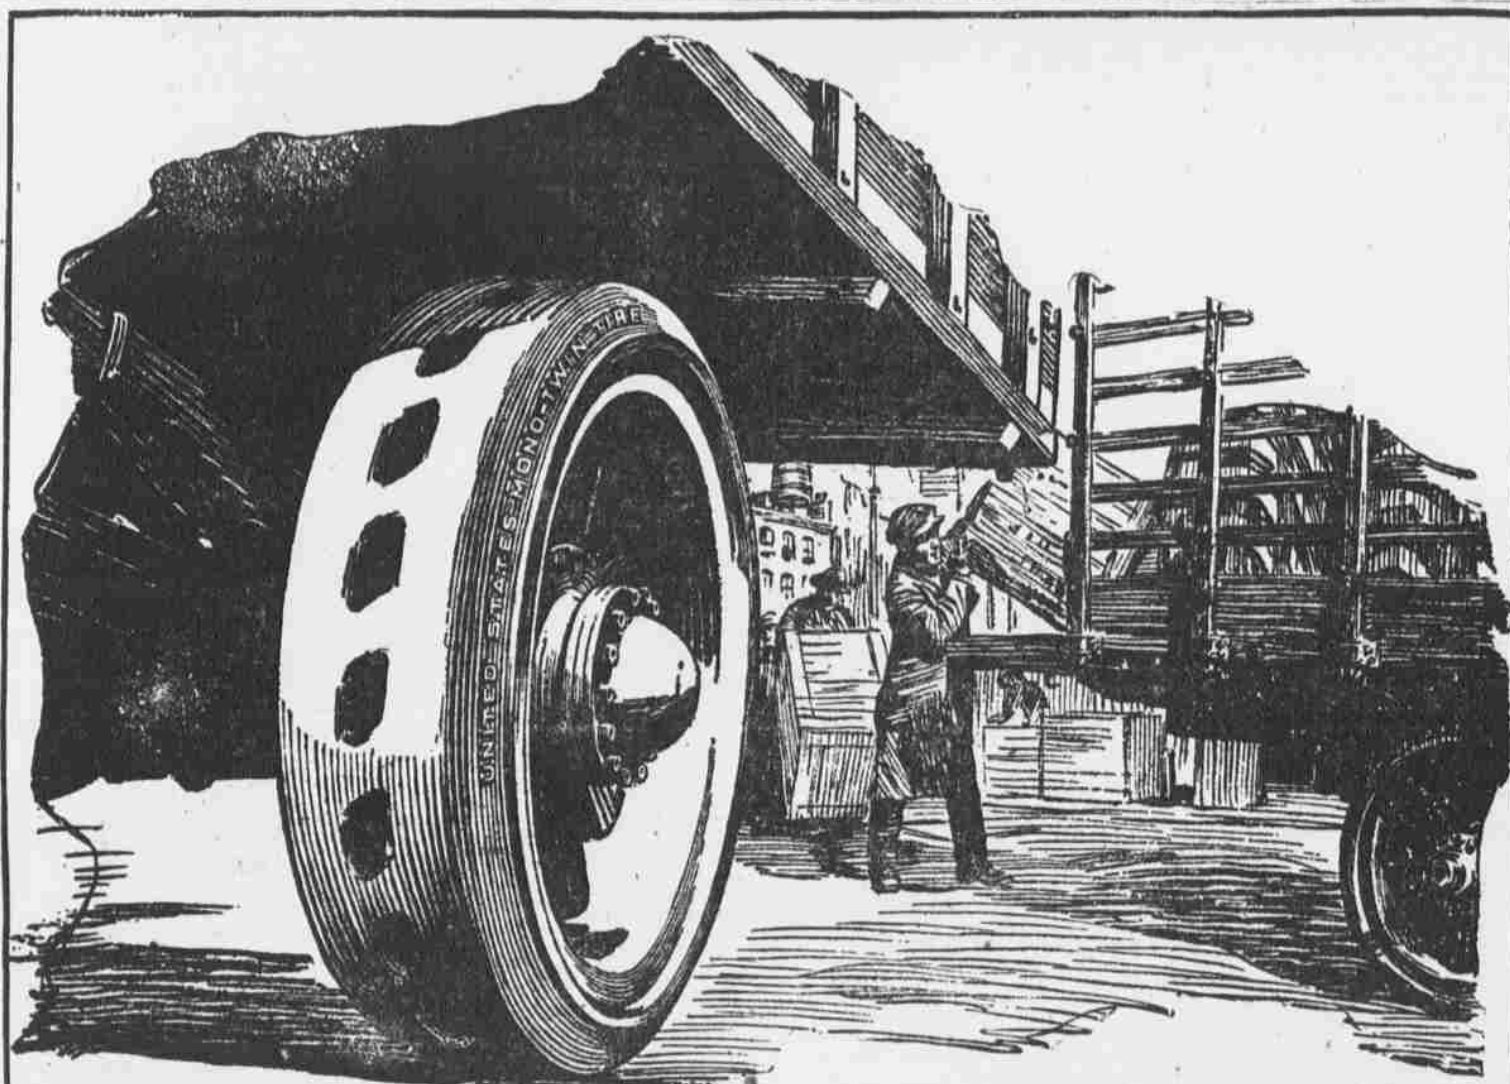

Capacities 1½ to 7½ tons, tractors to 15 tons

### "PERFORMANCE COUNTS"

## How is the Solid Truck Tire Buyer Going to Get What He Wants

ANY man who does his hauling on trucks equipped with solid tires knows what abuse does to them.

Faced as he is with the continual necessity for economy operation, he has to find tires that will stand up under severe duty without severe expense.

We might have picked out another solid truck tire instead of the U. S.—but what we were looking for was a tire built for road

and hauling conditions as they actually exist.

With United States Solids, built of grainless rubber—non-splitting—with rubber and base band chemically joined—ending base separation—goes our personal service that reckons the truck owner's time as money and proper advice as something he is entitled to at all times.

In purchasing a new truck consult us about the type of tires to specify.

### No Day Without a Line

"Nulla dies sine linea"

Long before this building was built, a kind friend placed upon an office desk in the Depot a little note made with her own hand in pen and ink, which spoke daily its message to a young beginner on the scaffold with square and trowel laying a new wall of business foundations.

It comes back and comes back with each day saying:

"Master—No Day  
without a Line!"

Cato, a Roman General, obliged the servant who brought and served the soldier's breakfast to say to him each morning:

"Carthage Must  
Be Destroyed!"

"Carthago delenda est!"

Are there not Carthages still to be destroyed, that endanger our beloved America, of which we need to be reminded daily?

How much greater this business would be, if all of us were determined to add a new endeavor each day to do something better.

### WATCHINGRO

The new animal toy

Mystery—a small bear is given to the baby to play with, but does it stay the same size? No. Overnight it grows almost half its size—stays that size for a while—then the wonderful change takes place again.

Or—the animal shrinks, grows smaller, or alternates in waxing and waning.

How? There's a set of four animals of graduated size—identical except for size.

Bears, dogs, cats, rabbits—Set of four animals—\$10.
